DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.

Reasons or Allowance

2. The following is an examiner's statement of reasons for allowance:

Independent claims 1, 9, and 15 recite a "c"-shaped electrode adapted to fit over a nerve bundle, having a distal portion and a proximal portion which are relatively flat and adapted to lie against the fascia tissue to which the nerve is attached. The electrode is designed to attach to the fascia tissue by which a suturing stitch may be placed through at least one suture hole located on both the distal portion and proximal portion of the electrode. The electrode may be embodied in a kit comprising different sizes whereby an electrode may be selected from the kit to provide for a best fit given certain nerve bundle geometries. In view of the shortcomings of the prior art, the Examiner deems independent claims 1, 9, and 15 and their depending claims to be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
